

Village of South Dayton
17 Park Street
South Dayton, NY 14138

EFFECTIVE IMMEDIATELY
Water Consumption Restrictions

All consumers (Residential, Commercial, and Industrial) are being asked to restrict water usage due to reduced production from existing wells.

These restrictions include:

1. No watering of lawns
2. No washing of vehicles
3. No filling of swimming pools
4. Limit shower length
5. Limit or discontinue any other non-essential water uses

The Village of South Dayton is completing a Water System Improvement Project that will work to increase production through the development of a new well. This project is currently underway, and we expect that this is a temporary condition. Dependent upon conditions we may require further restrictions or reduce restrictions in the upcoming weeks and months.

Any questions please feel free to contact me through the office 716-988-3833

Thank you for your assistance.

Steve Smuda
Water Operator
